In our society, we consume media on a daily, and sometimes, hourly basis. Because of this, we build our perspectives from the representations that we see in television programs, movies, social media, and print. Join friends, supporters, and allies in a safe space for a discussion focused specifically on queer representations in mainstream media, including pros, cons, and how they can shape the public's mind in both positive and negative ways.

THANK YOU TO OUR SPEAKER

Samhita Shantharam, a sophomore at Terre Haute South, is involved with STAND, Gay Straight Alliance (GSA), marching band, and also on the Youth Board at CANDLES.
