

CONFRONTING BIAS & BLIND SPOTS IN THE CLASSROOM

A FACING HISTORY AND OURSELVES WORKSHOP FOR TEACHERS

Join us for an interactive workshop in partnership with the Jewish Federation of Greater Indianapolis (JFGI) and CANDLES Holocaust Museum and Education Center on the role biases can play in our communities, our schools, and our classrooms. Using the Facing History approach, along with related scholarship, you will consider how our individual identities influence our understanding of others around us and develop strategies that can help build reflective and engaging learning spaces for your students.

FACING
HISTORY
AND
OURSELVES

People make choices. Choices make history.
